INTERMEDIATE MICROECONOMICS

The aim of this course is to give students the conceptual basis and the necessary tools for understanding modern microeconomics at the intermediate level.

In the context of this theoretical framework the course will explore a number of applied issues such as contract design, insurance, and ownership structures.

-
- Consumer theory
 - The theory of the firm
 - General equilibrium and welfare
 - Game theory
 - Oligopolistic markets
 - Information economics

Students will gain the conceptual basis and the necessary tools for understanding modern microeconomics at the intermediate level.
